Bangla (Excellent in Reading, Writing and Speaking)

English (Good in Reading, Writing and Speaking)

About Me

As a final-year Computer Science & Engineering student, I am eager to join a dynamic organization where I can take on a responsible role to apply and enhance my technical skills. I aim to contribute through creativity, problem-solving, and strong work ethics, while continuing to grow professionally and support the organization's goals in today's competitive global environment.

WORK EXPERIENCE

2024 - Present
Member of Southeast University Computer Club

- Actively participated in intra-university programming contests.
- Assisted in organizing coding competitions, seminars, and hands-on workshops for beginner and intermediate programmers.

2022 - Present
Personal GitHub Projects

- **Movie Recommendation System :** Built a simple content-based recommendation engine using movie descriptions and cosine similarity by Python, Pandas and Scikit-learn. Calculated similarity between movie plots. Recommended similar titles based on user input. Applied TF-IDF for text processing.
- **Movie Streaming Website :** Designed and built a responsive movie streaming website using HTML, CSS, and JavaScript. Integrated features such as search, feedback form, and a video playback page. Emphasized clean UI/UX and maintained code on GitHub for version control and portfolio presentation.
